

The Sequence Builder

WORKSHEET 7 OF 11

Your next eighteen months on one page: two dated lines at most, every line paired with an artifact, and an expiry date - because a sequence that ignores your next scan is a horoscope.

Your tree leaf (from Chapter 5)

Destination domain

Certification family

Owed artifact

THE FOUR LIMITS: "One exam in flight at a time. Two dated exams maximum. At least one month between exams. No dates beyond 18 months."

Slot 1 - dated

Certification family

Scorecard total (Ch 7)

True cost / funded by (Ch 8)

Exam month

Paired artifact + milestone

Drop condition

Slot 2 - dated, optional

only if your evidence supports it

Certification family

Scorecard total (Ch 7)

True cost / funded by (Ch 8)

Exam month

Paired artifact + milestone

Drop condition

Failed the first exam? The retake keeps the in-flight slot - slide the second line's date and the page's expiry back with it; do not date a second exam alongside the retry.

Undated notes - items to revisit, not plans

Senior tiers awaiting their experience requirement, families awaiting the next posting scan.
